Dear Weaver's Customer;

Weavers Hardware is committed to selling products that are of the highest quality and from dependable manufacturers. We want to make sure you are satisfied with the products you purchase from us. We try to resolve any issues you may have with products purchased in a convenient manner.

A lot of manufacturers are attempting to handle customer's questions and issues with their own customer service staff, and as a retailer we find ourselves less and less able to handle service issues at the store. Weaver's Hardware Company's response time has been significantly impacted as we cannot resolve your issue within a short time frame because of the manufacturer's expectation and requirements.

As a result, we are no longer a certified warranty and service center with Resource Partners who manufacture and distribute Edenpure Heaters. However, we will continue to sell and give our customers options on Electric Heating Systems.

Edenpure Heaters (Resource Partners) has a customer service department in which you can access to receive the assistance that you need with your unit. They can be reached through a 1-800 number or a website listed below. You will be instructed by Resource Partners on how to go about getting your unit serviced.
