2% x 3 =
6%

You'll Get 6% Back In A Rewards Certificate With Your 4 Step Program Purchase

Certificates are treated like cash in our stores.

You'll see these Rewards Certificates In May & June

Exclusive To Weaver's Ace Hardware

Why Lime?

Lime neutralizes soil acidity. Most soils contain appreciable amounts of acidic components that can be toxic to plants, so lime is the "anti-acid" for soils. Lime raises soil pH, providing a more favorable environment for microorganisms. Plants will utilize applied fertilizers more efficiently on soils that are properly limed. **Increase fertilizer effectiveness with these products!**

- ☑ Apply Lime In Early Spring With Your First Application Of Fertilizer
- ☑ Water Immediately After Applying Lime
