

UPDATE Here's our current inventory of wood pellets. We suggest you buy as soon as possible from this inventory as we're told by the industry that wood pellets are expected to be difficult to manufacture this season due to lumber shortages and COVID-19.

WOOD PELLETS

New this season is a premium hardwood pellet by **Hallmark**. These pellets are manufactured under strict quality control guidelines for a low ash, low moisture, high BTU pellet.

Our preferred supplier of wood pellets over the last 20 years is **Lignetics**. We purchase them from their plants in Virginia and West Virginia. We have found their product quality to be good and consistently good throughout the winter months as well as during the summer and fall pre-season production. So we are again offering Lignetics as our proven high quality wood pellets.

A premium option is the ultra premium softwood pellets by **American Wood Fibers**— anyone who uses these pellets almost never goes back to hardwood pellets because the white pine pellet has almost no ash and higher heat.
